## WORK EXPERIENCE

-  Mar 2016 - Present  
**Microsoft Italy**  
*Microsoft Student partner – Regional Team Leader*  
In addition to the tasks of the classic MSP (see below) Regional Team Leader should organize activities in the entire region (Tuscany), support all MSP and always be the meeting point between Microsoft and Tuscan MSP.
-  Dec 2015 - Mar 2016  
**Microsoft Italy**  
*Microsoft Student Partner*  
As Microsoft Student Partner My job was to organize and support events and seminars at my university, regarding Microsoft technologies.
-  April 2013 - sept 2014  
**A.S.D LUNIGIANA 2000**  
*Animator and Lifeguard*  
I have worked with children as an animator, proposing their tech games. I also served as a certified lifeguard.

## EDUCATION

-  Sept 2016 – Present  
**Università degli Studi di Pisa**  
*Computer Science*  
I'm attending the second year of computer science Course
-  Sept 2015 – Jul 2016  
**Liceo Scientifico Galileo Galilei**  
*High School, Castelnuovo di Garfagnana*  
High School Degree at Liceo Scientifico "Galileo Galilei" in Castelnuovo di Garfagnana, LUCCA

## SKILLS

During my work as MSP and participation in different events and Hackathon, I gained a lot of communication skills, and greatly strengthened the ability to work in teams, and lead it. I am also very capable of using different game engines and programming languages such as: Unity 2D \ 3D, Unreal Engine C \ C ++, C #, and many others.

# MANRICO DIAMANTINI

DEVELOPER AND PROGRAMMER

## ABOUT ME

lover of technology and computers as a child, I started coding very soon. expert in developing videogames, I program mainly in C\C++ and C# but I have knowledge of many other languages, including the WEB's one. I attended in many hackathon, and competitions, while continuing to study IT to improve my skills.

## PROJECTS

2016 --  
Present

### Microsoft Imagine Cup

*Team Leader and Programmer*

Moonslice, an innovative and fully customizable gaming controller, proposed by the team "Dark Side Ducks", won the Microsoft Imagine Cup Italian Finals, the European Finals against more than 30 team, and it was selected to participate in the World Final held in Seattle. The Team has also be selected to participate in the "Ability Award".

The "Dark Side Ducks", according to Microsoft is in the Pool of the 13 most innovative team of the year 2016.

The project still going ahead.

2016

### ReNewHack

*Team leader and front-end programmer*

Whit the help of the team "Gauch" we have created a system that allows anyone to install an electrical system in a simple , fast and inexpensive , using totally renewable energy , particularly solar energy .

2016

### #SkySportHack

*Front-end Programmer*

The Team "daje tutta" has proposed to the #skySportHack Jury an app to make use advertising during a game in a fun way.
