This workshop is a unique opportunity to bring together existing Coalitions, as well as Coalitions that are under formation, take stock of their progress so far, and reflect upon a roadmap for growing and strengthening them. The interactive sessions will be based on the results of the survey and follow a structured approach, e.g. 1) what are the key problems in your country you are tackling with your initiative? 2) Which are the instruments/solutions and 3) key stakeholders? 4) Obstacles/challenges and how to overcome them.
