Future ReCoded In Bologna

The eighth leg of the **Future Recoded** educational tour to improve the digital skills of young men and women has reached Bologna, after stopping in Tuscany, Puglia and Campania.

The appointment today is at the IIS **Rosa Luxemburg** School in Bologna, managed by Headmaster Paolo Bernardi.

The course will be held by Coach Tommaso Stocchi, an information engineering student at the University of Bologna.

Project **Future ReCoded** (March 2016 - February 2017), financed by **Microsoft YouthSpark** and **Fondazione Cariplo**, and coordinated by the **Fondazione Filarete**, aims to provide greater professional opportunities for thousands of Italian students through the practice and development of digital and technological skills.
