

Anti-Bullying Centre

SONETBULL

ABC will work with partners in Greece, Italy and Belgium on a project entitled “**Using ICT training based on social networking tools with peer learning and crowdsourcing techniques to train school education stakeholders on how to deal with bullying**”. The project main objective is to design, create, implement and evaluate a training platform that will provide teachers, teacher trainers, and all other stakeholders access to accredited training material on school bullying and cyber bullying, as well as the means to publish their experiences and to comment and tag the experience of their peers.
