"Open Day" at Città Educativa. The LEIS opens the door to Roman Schools.

Date: 27.11.2013

Time 10:00 - 16:00

City Roma, Italy

Event Type Open house; Lab tour; Exhibition; Workshop / public talk / discussion; Educational reach-out

Organisation/s name Fondazione Mondo Digitale

Event's address/ location Via del Quadraro 102, 00174, Roma, Italia

Description: On the occasion of the European Week of Robotics, Fondazione Mondo Digitale opens up the space dedicated to robotics LEIS (LEGO Education Innovation Studio) to Roman schools. Teachers and school principals will have the opportunity to learn about the educational program offered by Fondazione Mondo Digitale within the LEIS and may choose to start an educational path in robotics in their own schools. Monthly meetings to get trained and share the acquired knowledge with other teachers and schools in order to create robotics nodes distributed throughout the Roman Empire. During the day, after the presentation of the activities, there will also be demonstrations and interactive workshops for students held by schools that participated in the RomeCup 2013, the Excellence of Robotics in Rome.

Target Audience Students, teachers and principals of schools in Rome.
